FORENSIC PATHOLOGY
LEGAL MEDICINE

June 11, 1992

James J. Humes, M.D.
5 Spy Glass Lane
Ponte Vedra Beach, Florida 32082

Dear Dr. Humes:

On Wednesday, June 17, 1992, at 12:00 Noon, Dr. Charles Crenshaw and I will be holding a news conference at the Omni-Shoreham Hotel in Washington, D.C. We shall be addressing the various pathology, forensic scientific, and other medical evidence associated with the assassination of President John F. Kennedy. An integral, major part of our presentation and discussion will relate directly to the post-mortem examination that you and your two colleagues performed on President Kennedy at Bethesda Naval Hospital on Friday evening, November 22, 1963.

Dr. Crenshaw and I also plan to discuss various comments attributed to you and Dr. Boswell, as reported by Dr. George Lundberg at the news conference that he held in New York City on Tuesday, May 26, 1992, and further expounded upon by you and Dr. Boswell in an article published in the May 27, 1992, edition of JAMA.

I am confident that you would agree with Dr. Crenshaw and me that every good faith effort should be made by everyone concerned to resolve any remaining differences of opinion pertaining to the medical and forensic scientific aspects of President Kennedy's death. It is most significant and highly disturbing that almost 29 years after the murder of our President, this case remains a highly controversial and unresolved matter in the minds of countless millions of people in the United States, approximately 85% of whom have repeatedly expressed their rejection of the Warren Commission Report in numerous national surveys and polls.

In order to make every effort to help clarify and possibly resolve many of the questions and problems associated with the medical evidence in this case, Dr. Crenshaw

James J. Humes, M.D.

and I would like to invite you to come to Washington, D.C., on June 17th to participate in this news conference. You can be assured that you would be treated with utmost respect and courtesy, and you would be offered full opportunity to participate in the news conference in the same fashion and to the same extent as Dr. Crenshaw and I.

Please let me know if you are able to accept this invitation. I can be contacted at any time at this address and phone number until Tuesday morning, June 16. Later that day, I shall be staying at the Omni-Shoreham Hotel and can be reached there - (202) 234-0700.

Dr. Crenshaw and I very much hope that your schedule will permit you to attend and participate in this news conference. Your direct involvement, along with ours, might well lead to a clarification and possible resolution of at least some of the residual quandaries and controversies associated with the medical aspects of President Kennedy's assassination.

I look forward to hearing from you.

Very truly yours,

Cyril H. Wecht, M.D., J.D.

CHW/mb

cc: Charles A. Crenshaw, M.D.

P.S. Although I have written separately to Dr. Boswell, I do not know if he still resides in Rockville, Maryland. Inasmuch as I have been unable to obtain a more recent address from any of my medical directories, I am enclosing an extra copy of my letter to Dr. Boswell, with the request that you call it to his attention as soon as you are able following receipt of this letter, and if physically possible, deliver it to him. I have been led to believe that Dr. Boswell resides near you in Florida.
